What is it?

The real authentic barbecue is based on the low & slow principle. Large pieces of meat, fish, poultry and vegetables are lightly smoked between 4 and 9 p.m. The difference with the barbecue grill is a much juicier and tasteful end result. It's also much healthier because the ingredients never come into contact with fire.

Number of people who want vegi or vegan, number of people who are allergic and to which allergy: must be communicated in advance, otherwise we may have supply problems at the buffet. All salads are cooled on the buffet and covered with a luxurious plexi lid (against insects and heat).

MEAT

**TEXAS STEAK
SMOKED ON OAK WOOD**
